

Proiecte de colaborare dintre IUCN (Institutul Unificat de Cercetări Nucleare)/JINR - Dubna și institutele din România

Nr. crt.	Facultate	Nr. tema	Nr.contract	Titlul contractului	Director proiect	Perioada de derulare	Valoare contractată USD	Valoare decontată USD
1	Biologie	02-1-1107-2011/2019	7	Investigation of Vaccinium myrtillus extract in the mediating of silver nanoparticles green synthesis and the effect of their on environmental microorganisms	Lector univ. dr. OPRICĂ Lacramioara	27.05.2019-31.12.2019	1,400.00	1,400.00
2	Fizica	04-21132-2017/2019	21	Experimental investigation of the behavior of eukaryotic environmental organisms	Prof. univ. dr.CREANGĂ Dorina	27.05.2019-31.12.2019	2,083.00	2,083.00
3	Fizica	04-4-1121-2015/2020	45	Structural investigation of surface modified magnetic nanosystems synthesized by conventional or eco-friendly methods and their impact on the environment	Prof. univ. dr.CREANGĂ Dorina	27.05.2019-31.12.2019	2,350.00	2,350.00
4	Chimie	04-4-1121-2015/2020	39	Magnetic and magnetoresistive polymetallic nano-oxide: structure, magnetic and transport properties	Prof. univ. dr. PUI Aurel	27.05.2019-31.12.2019	3,200.00	3,200.00

5	Chimie	03-4-1128-2017/2019	59	Adsorptive performance of mesoporous materials towards rare earth elements removal from synthetic and industrial wastewaters using NAA and AAS techniques	Prof. univ. dr. HUMELNICU Doina	27.05.2019-31.12.2019	3,700.00	3,700.00
