

UNISAFE

UNISAFE

Security and safety of HEIs students and staff moving abroad

About the project

In response to the increasingly important issue of security in the global world, and to its impact on Higher education students and staff experiencing international mobility, **UNISAFE** project aims to **address the issue of safety, security and wellbeing of international mobility participants** and to create **effective security procedures, practical tools and training opportunities** to ensure safety and security of students and staff during an international mobility period.

Objectives

1. To implement **standard protocols, procedures and good practices** for HEIs to deal with safety issues
2. To provide **online training for HEI staff** on safety and security issues
3. To provide **online training for mobile participants** on safety and security issues
4. To offer **practical tools** to HEIs staff and students association to deal with safety and security issues

Expected impact

1. To improve the **quality and the safety of international mobility** experiences
2. To enhance the **professionalization of HEI staff** on safety and security of mobile participants issues
3. To open a **debate at local, national, international level** on safety and security of mobile participants issues

Outputs

Online open-access tool for the self-assessment of HEIs on safety and security issues.

<https://internationalsurvey.unipv.it/>

Online open course on how to manage safety and security issues during international mobility targeted at academic and administrative staff

Open course on safety and security during international mobility designed for incoming and outgoing mobile participants (students and staff)

Feasibility study on a notification system designed to :

- get in contact with mobile participants,
- send critical information in the event of an emergency
- get immediately information about their safety and wellbeing
