

[Apply here](#)**Start date**

September 2021

Duration

6 months

Languages

Good spoken and written English levels are required (B2 onwards)

Location

Cirencester,
Gloucestershire, UK

Often referred to as the Capital of the beautiful Cotswolds, Cirencester was the second largest town in Britain during Roman times. Today it is home to more than 18,000 people and a service centre for the thousands more who live in surrounding villages. Home to the oldest Polo park in the UK, this Royally connected town has fine eateries and shops and offers plenty of things to do in and around the surrounding areas.

Benefits

See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

Role

This is an exciting role for a student keen to develop practical skills in supply chain management, within this innovative orthopaedic company. Mentored throughout, you will assist the Production Planning Manager and the Purchasing Manager with day-to-day duties and supply chain strategies within the operations departments. One specific focus will be on management of the host's key subcontractors who provide manufacturing services to their products. For the selected candidate, this will be an invaluable supply chain experience in the manufacturing industry.

Tasks

- Assist with the development of processes and tools for managing our French, German and Italian key subcontractors
- Work closely with Production Planning, Purchasing, Finance and the subcontractors, for the completed supply chain by creating true partnerships and forging long term strategies
- Develop tools to share data in real time, to track the status of works orders
- Develop KPI's and reporting

Desired Skills

- Studying for a degree in business, manufacturing management, logistics or other relevant
- An interest in manufacturing and supply chain activities
- Excellent spoken and written English skills
- Good Microsoft Office knowledge
- Excellent communication and networking skills, telephone, and face to face
- Ability to work on own initiative and with great organisational skills
- A flexible and hands on approach required

The Host Company

Since it was established, the host has led the way in orthopaedic innovation, providing a faster, positive, and more assured return to quality of life for people all over the world. Today, as a dynamic, growing, global business, the company's approach is revolutionising orthopaedics, offering a unique combination of clinically proven hip and knee solutions that are tailor made to suit each individual patient using advanced biomechanics. Also using innovative technology for pre-operative analysis and patient aftercare, these are exciting times for this expanding organisation.
