Role

This is fantastic opportunity for a technically minded student, with excellent problem solving and communication skills, to gain practical experience with this leader in spend management solutions. Mentored throughout, you will assist the support team to ensure the smooth operation of applications and produce analytical reports to offer insight to the management team, enabling better decision making. If you think you have the necessary skills and qualities and are seeking a career enhancing experience, then apply today.

Tasks

- Assist in the management of operation tools, to ensure support team success
- Provision of internal and external access to support tools and communities to tackle issues
- Helping create, manage, track, and analyse support KPI's via reporting tools and dashboards
- Analysing data and building reports to provide insights to management
- Assisting in investigation and resolving of business problems, while identifying opportunities for improvement to increase productivity of the organisation
- Assisting in the management and delivery of multiple improvement projects
- Managing and communicating change.

Desired Skills

- Recently completed or currently pursuing studies in Business Informatics, Business Analysis or a related field with an emphasis on data or problem solving.
- Strong Excel skills. Knowledge of Tableau or other data visualisation software would be an advantage but not essential.
- Confidence in ability to own to deliver on projects and issues to resolution
- Problem solving ability
- Flexibility and adaptability
- Excellent communication skills and ability to respond to queries quickly and appropriately

The Host Company

The host company is a world leader in the provision of unified cloud Spend Management Solutions for medium and large size enterprises that typically operate on a global scale. The software platform provides greater visibility into, and control over, how companies spend money, achieving significant savings and driving profitability. Since its launch, this platform has helped customers globally to bring billions of dollars in cumulative spend under management. Expanding rapidly, now with 3200 staff globally, this host is seeking talented individuals to join them in their success. Long term career opportunities are available to the right individuals.
