Location

Belfast, Northern Ireland

Belfast is the capital city of Northern Ireland and over recent years has seen a period of significant regeneration and growth. The birthplace of the [Titanic](#), this vibrant city has a buzzing nightlife and social scene with many cultural events taking place throughout the year. Close to beautiful countryside including [10 Game of Thrones filming locations](#) and the famous [Giant's Causeway](#). Belfast has something to suit all tastes.

Are you eligible?

You are eligible for an ESPA internship if you are a registered student or have graduated within the past two years and have access to some form of grant funding

Benefits

See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

Role

This is a fantastic opportunity for a driven student interested in quality assurance to help ensure the high-quality standards and future success of an innovative company in the medical technology sector. Not only will you be developing your own skills and knowledge whilst gaining hands-on experience within a Quality Management team, but you will also be contributing to revolutionising surgical procedures. This company has hosted several successful ESPA internships, so you are sure to have a rewarding experience, both inside and outside of work, in this lively city.

Tasks

Due to its position in the medical sector, there is a strong focus on quality and accreditations at the host company. Under guidance from other team members, you will have the opportunity to assist in a range of tasks to ensure the overall quality delivered by the business.

You will:

- Work collaboratively with the team to identify key areas to improve
- Use existing knowledge and skills to suggest amendments and improvements
- Assist with the communication and implementation of changes
- Maintain up-to-date records of the latest accreditations
- Follow all necessary accreditation procedures
- Enhance business performance with a focus on quality

Desired Skills

- Working towards a degree in Management, Medical/Biomedical or Business sector (or other relevant)
- Previous experience of working with accreditations/certifications
- Knowledge of quality assessment
- Knowledge of/keen interest in medical technology.
- Strong organisational skills and attention to detail.
- Ability to work both autonomously and within a team
- Able to demonstrate good communication skills.

The Host Company

The host company is an innovative medical technology firm specialising in creating 3D prints from traditional X-rays and MRI scans. This provides surgeons and clinicians with an accurate model to improve diagnoses, prepare and plan surgical procedures, resulting in shorter surgery times, improved patient outcomes and the advancement of surgical standards. This company is revolutionising the medical sector through continuous development and growth.
